This event will take place on a small section of the original Passchendaele map made in 1982. Some updating of the tracks and vegetation has been done plus some limited modifications have been made to some of the rock mapping near control sites to bring it into line with current standards.

For those going to the Queensland Championships in Kingaroy, at about 12pm Eric Andrews will give a brief overview of the terrain there and the skills needed to compete successfully in this granite terrain. Sunday 30 August
