****Postponed - new date 16 January 2016****

Controllers conference, with the aim of helping OQ members complete L1 Controllers Accreditation.

We aim to offer travel subsidies for those travelling from regional areas. More info to follow.

This workshop is aimed at those who are already L1 controllers and would like to update their technical knowledge.

Experienced event organisers or course setters who do not have controllers accreditation who would like to gain L1 accreditation.

There will be some reading to complete before the course and we aim to compete as much of the day as possible as a group discussion.
