This map has been upgraded by Geoff Peck and we are able to use a more convenient entry place on the Southern side of the map.

We effectively have a new map in an area close to Brisbane. There is some lantana in the creeks but most of the map is very runnable. There are no steep climbs.

Pre-enter is highly encouraged to help the organisers. However enter on the day is fine. There will be sufficient printed maps for most people and spare maps can be marked in own time if the printed ones run out.
