This workshop is run by Eric and Liz and is for this year's course-setters and anyone else who is keen. Those not familiar with Corpse will also have training in using the software. The afternoon session will be run by Rob Crosato, on how to use the SI software. It is really important, now we have the fancy gear, that we do not have to rely on one person to run it for us. Everyone welcome!! Lunch will be provided and a fuel subsidy is available for those who live out of town.
