

# Request for Tender by OQ – QUOTE DUE BY AUG 31, 2018

## Paperbark Flats neighbour

<u>Specification</u>	<u>Details</u>
Map Name	PBF Neighbour
New map or remap?	New Map
Map Required	Proposed initial map are the three private land holdings marked in purple to the North and the small piece remaining East of private land to connect to existing PBF map. Considerable cherry picking of best areas is expected to keep costs down and remainder marked as "Detail not Mapped" -- parts of this map are expected to be developed in near future. The goal is to map and use multiple times as quickly as possible before being lost (but rocky slopes near PBF are expected to always be available.)
Map Scale	1:10,000
Area of map	Approx 2 square kilometres due to cherry picking.
Is there a georeferenced base map?	No. Geo-referencing is required.
Is there a base map in OCAD 10 or higher?	No but map should be adjoined to current PBF map as single map file.
Will map be extended in future?	No, the opposite!
Is there Lidar or other data available for area?	Yes, excellent Lidar available from ICC.
What is vegetation?	Similar to Mundoolin in the flat areas (lantana you can always get through) and some rock areas on slopes quite runnable like PBF on a good year. Unexpected amounts of erosion and mound detail in places. Very fast to very slow. Map is to be designed for OY standard using an experienced course setter.
Deadline for map.	Dec 2018
Variance allowed to quote	Up to 10% without requiring approval. Any increase in quote beyond this level requires written approval from OQ Mapping Officer.
First event use.	TBA
Club to which map reverts after first event.	UG
Distance from Brisbane GPO.	40km

*Note for Sprint Maps quotes are generally related to number of buildings and complexity therein.*

### SEE OVER

In your quote, please separate cost of:

--Production of Map including expected number of days field work.

--Travel and accommodation. Note car travel is reimbursed at 30 cents per kilometre

**Please note the following OQ Mapping Conditions.**

- 1) *Maps should be drawn to ISOM 2017 and ISSOM 2007 specifications*
- 2) *The mapper should allow, as part of their quote, the time to make any map changes as requested by controller of first event up to a maximum of one half day field work and map edits. Such changes to be provided by the controller to the mapper at least one month prior to event.*
- 3) *After the completion of first event on the map, the OCAD map file is to be provided to the OQ Mapping Officer. Any areas on map not mapped in detail should be clearly described as such.*

- 4) *Payment Terms. 80% of Map production costs and 100% of travel costs upon sighting of map in near final form. The remaining 20% after completion of first event and handover of OCAD map file.*
- 5) *The mapper grants Orienteering Queensland ownership of copyright. OQ reciprocally will acknowledge the original and subsequent mappers whenever using the map.*
- 6) *Individual clubs are responsible for any costs of maintaining maps and any major or minor updates using their own volunteers or as they see fit. Clubs are expected to inform the original mapper of any changes.*
